

ENGINEERING REBOOT 2026

Phase II Daily Field Manual Template v1.0

LOCKED TEMPLATE

Document Status

Field	Value
Document Type	Template Standard
Classification	Daily Execution Guide
Version	1.0
Status	Locked
Effective	Week 6 Day 26
Applies To	Phase II Daily Field Manuals

Purpose

This document defines the standard structure for all Phase II Daily Field Manuals. It standardizes execution planning while allowing individual topics to vary.

Locked Template Structure

- 1. Mission
- 2. Engineering Context
- 3. Learning Objectives (Technical and Engineering)
- 4. Core Concepts
- 5. Exercises
- 6. Mini Project
- 7. Validation Matrix
- 8. Evidence Checklist
- 9. Engineering Review
- 10. Notes.md Guidance
- 11. Journal.md Guidance
- 12. Completion Checklist
- 13. Preview

Documentation Principles

- Master Workbook defines the week.
- Wall Planner visualizes the week.
- Field Manual defines daily execution.
- Engineering Review evaluates implementation quality.
- Notes capture technical knowledge.
- Journal captures engineering growth.
- Each document has a single responsibility.

Change Control

This template is frozen for Week 6. Improvements identified during execution shall be evaluated after Week 6 and incorporated, if approved, into Phase II Daily Field Manual Template v2.0.

Closing Statement

With this template locked, Phase II shifts its focus from designing the engineering process to executing it consistently and professionally.
