

ENGINEERING REBOOT GOVERNANCE v4.0 (LOCKED)

This document is the authoritative governance specification for Engineering Reboot 2026.

Supersession Statement:

This document supersedes and replaces all prior governance documents, drafts, addenda, working notes, governance revisions, and governance interpretations, including but not limited to:

- Governance v1.x
- Governance v2.x
- Governance v3.0
- Governance v3.1

When conflicts exist between prior governance documents and this document, this document shall prevail.

Curriculum vs Governance

Master Workbooks control:

- Learning objectives
- Daily topics
- Deliverables
- Curriculum progression

Governance controls:

- Directory structures
- Artifact placement
- Naming conventions
- Notes and Journal templates
- Evidence collection
- Git workflow
- Field Manual authoring standards

Directory Structure Standard

Week-XX/
Exercises/
Day-XX/
Notes/
Day-XX/
Notes.md
Journal/
Day-XX/
Journal.md
Projects/
Day-XX/
Evidence/

Artifact Placement Rules

Exercise files:

Week-XX/Exercises/Day-XX/

Notes:

Week-XX/Notes/Day-XX/Notes.md

Journal:

Week-XX/Journal/Day-XX/Journal.md

Projects:

Week-XX/Projects/

Evidence:

Week-XX/Day-XX/Evidence/

Filename Governance

Day identifiers shall not be repeated in filenames when already represented by directory structure.

Use:

Notes.md

Journal.md

Do not use:

Day-06-Notes.md

Day-06-Journal.md

Exercise files shall use descriptive filenames.

Avoid T01.py, T02.py, etc.

Standard Notes Template

Sections:

- Concepts Learned
- Key Commands
- Key Observations
- Lessons Learned
- Questions For Future Study

Standard Journal Template

Sections:

- Summary
- Challenges Encountered
- Solutions Applied
- Confidence Assessment
- Reflection
- Tomorrow Preparation

Field Manual Requirements

Every Field Manual shall include:

- Mission Brief
- Artifact Placement Matrix
- Exercise Specifications
- Notes Template
- Journal Template
- Validation Matrix
- Evidence Matrix
- Git Workflow
- Completion Checklist

Exercise Specification Requirements

Every exercise shall define:

- Objective
- Filename
- Repository Location
- Input Method
- Input Type
- Inputs
- Processing Rules
- Expected Outputs
- Example Console Output
- Validation Procedure
- Evidence Requirements

Input Classification

HARDCODED
TEXTUAL
NUMERIC
GRAPHICAL
FILE
NETWORK

Evidence and Validation

Every exercise shall include:

- Validation Matrix
- Exact expected behavior
- Example outputs
- Screenshot requirements

Behavior shall never be implied.

Git Workflow

Mandatory sequence:

```
git status  
git add .  
git commit  
git push
```

Remote repository verification is required.

Technical Debt Prevention

No future workbook, field manual, or project artifact may introduce:

- New directory structures
- New naming conventions
- New artifact locations

without first updating governance.
